

READY JET GO! follows three neighborhood kids: Sean, who has an all-consuming drive for science facts; Sydney, who has a passion for science fiction and imagination; and their 4-year-old neighbor Mindy, who has lots of questions about Space. They befriend the new kid on their street, Jet Propulsion, whose family happens to be aliens from planet Bortron 7. Together, they explore the solar system, learning about friendship and teamwork along the way.
